DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 remain rejected under 35 U.S.C. 102(b) as being anticipated by Asakawa (US Pat 6609806).

As for claim 1, Asakawa teaches a backlight system for a display panel with a divergent point light source 4, a first light-reflecting unit 12, 13 having a first reflecting surface 13 to reflect, to fan out and to spread the incident light beam from the divergent light source in a first direction, and a second light reflecting unit 16 having a second reflecting surface to spread the reflected light from the first reflecting surface facing the second reflecting surface in a second direction (Fig 1) and to project the reflected light from the second reflecting surface onto a display screen 10 as a backlight.

As for claim 2, Asakawa further teaches that the first light-reflecting unit has a curved surface contour reflecting unit.

Claims 3-15 remain rejected as discussed in the Office action of 11/01/2005, as these dependent claims have not been argued separately by applicant.

Response to Arguments

Applicant's arguments filed 12/29/2005 have been fully considered but they are not persuasive. The applicant's arguments are not consistent with the claims. Claim 1

Art Unit: 2875

does not require there to be only two reflections. Additionally, light source of Asakawa does fan out into the backlight module.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
